for our Free DVD

Thank you for enquiring into our vast range of Classic Alfresco Patio and Enclosure systems. The first benefit you will notice in a Classic Alfresco is the clean lines and uncluttered appearance created by reducing the amount of Beams in the structure and replacing them with specially designed Powdercoated Aluminium Channel Extrusions.

In Australia's glorious climate Outdoor Living is very important to all of us. Creating an Outdoor Alfresco that is both cool in summer and warm in winter is essential in enabling you to enjoy the maximum portion of the year outdoors. All Classic Alfresco systems have built in channels for future enclosing of your structure in solid wall or adjustable glass frame systems to enable year round use.

As you enjoy Classics DVD of previously constructed Alfresco areas try and relate them to your own future outdoor living area.

# Why you should buy a Classic Patio and not settle for anything less..

## Built for WA Weather

### UNIQUE ALUMINIUM GUTTERS

People who don't live in WA can't imagine the intensity of our rainfall. Correct rainwater flow is essential to all roofing systems, At Classic we have designed a purpose built ALUMINIUM gutter and beam Extrusion designed to cope with the extreme downpours experienced in WA. This extrusion includes channels designed For waterproofing future wall or blind construction while also Providing a conduit to conceal electrical cables for lighting, Heating or fans. Available in the Dulux Range of Powdercoat colours to compliment your existing home.

*Aluminium Gutter-Beam Extrusion*

## No Gaps, No Draughts, No Pests

### ALUMINIUM RIDGE AND HIPEXTRUSIONS

Classic's Aluminium Ridge and Hip Extrusions are designed to eliminate gaps and beams hanging below the ceiling line. With its specially designed adhesive backed waterproof foam these extrusions also eliminates the chances of windblown rainwater penetrating under the ridge line while also sealing against mosquitos and any other unwanted pests, especially if you intend to enclose the structure at a later date. Available in the Dulux Range of Powdercoat colours to compliment your ceiling choice.

*Aluminium Ridge Extrusion*

## Manufactured here in Perth

### QUALITY ROOFING

Because we make your patio and assemble everything here in Perth you are dealing direct with the manufacturer. No middleman, no hidden fees and better quality control gives you peace of mind and saves you money, and because we make it, we guarantee it.

*Slate Insulated Roof*

*Terrecotta ClassicDeck Roof*

## No Rust Aluminium Beams and Posts

### ALUMINIUM POSTS

Classics Aluminium 90 x 90 or 70 x 30 posts are designed with decorative lines to compliment all other components while being structurally strong to take any future Blinds Glass or walling options. Available in the Dulux Range of Powdercoat colours to compliment your existing home.

*Aluminium Post Extrusions*

### ALUMINIUM BEAMS AND RAFTERS

Classics Aluminium beams and rafters are available in either 100 x 50 or 150 x 50 and are powdercoated to blend in with your choice of ceiling colours so as to compliment your structure without obstructing the clean lines of your ceiling. They are connected using Classics exclusive internal welded Aluminium sleeves and Aluminium external connector brackets. They too have decorative lines to match the other Classic components. Available in the Dulux Range of Powdercoat colours to compliment your existing home.

*Aluminium 100x50 Rafter Extrusion*

# Classic Insulated Patios

Available in Gable, Double Hipped Gable and Flat Patios

50% Cooler in Summer and 50% Warmer in Winter

# Classic Double Hipped Alfresco Patios

Discover the practicality of a Classic Double Hipped Alfresco Patio. A double hipped roof line provides greater weather protection Winter or Summer. Cleaner, neater ceiling finish available in Cream, White and even Tassie Oak and topside roof colour available in Slate Grey, Terracotta, White or Cream. Transform your unsightly outdoor area into a genuine Classic Alfresco area by adding

Outdoor Kitchens Plasma TV, Lounges Fans Heaters and outdoor dining tables. Your Options only limited by your own imagination.

Turn your unsightly rear area into a genuine alfresco daily living area by adding kitchens, TV's, tables and lounge to facilitate a natural daily living alfresco.

# Classic Gable Patios with luxurious style

The Classic Aluminium Gable Patio provides excellent ventilation and height with its standard 25 degree pitch. Includes Aluminium Gutters with Aluminium Ridge extrusions as well as either 70 x 30 or 90 x 90 Aluminium Posts and Rafters compliment this traditional style of shelter. Available with either Classic Deck heat reflective roofing or Classic Insulated Roofing. This design is very popular with the more budget conscious consumer as it is slightly more economical than the Classic Hipped roof design. Optional Naturelite skylights, Colorbond lattice or polycarbonate end infill's are available on request. Complete powdercoat range of colours available for Aluminium framework.

# Classic Flat Patios

Fully insulated flat patios have dramatically enhanced the concept of traditional shade roofing. The clean modern lines with a projection of style now blends with the latest modern skillion roof styles of homes appearing around Perth today. Available in standard flat, reverse or side

skillion, with a variety of colours for top and bottom to blend with your home. Standard features include colourbond gutters, aluminium beams, aluminium posts, all colour coded to enhance your home. Tassie Oak ceiling is available for a timber lined look.

# Classic Glass Enclosed Patios

Convert your open Classic Alfresco patio into a warm winter paradise while enjoying the benefits in summer of an open Alfresco Patio. With clever use of large opening Glass Sliding Doors Classic can create an area that will be enjoyed by your family all year round rather than just in Summer. If it's too

cold or windy just close the doors. If it's too warm just open the Glass doors and let the breeze through while the standard flyscreen doors keep the flies and mosquitos out. All Classic Patios are designed to easily convert to an all seasons Enclosed Glass Alfresco Area.
